INGREDIENTS

Unrefined mineral sea salt, sodium selenite, zinc oxide, zinc sulfate, manganous oxide, manganous sulfate, copper sulfate, cobalt carbonate, organic oil, ethylenediamine dihydriodide (EDDI)

PRODUCT PAIRINGS

We recommend combining Redmond Selenium 90 with Redmond Conditioner to take your mineral program to the next level

- 2-3 parts mineral salts
- 1 part Conditioner

TESTIMONIALS

“ We gave our cattle a choice between regular and selenium, the selenium tub is empty way before the regular. I think that review speaks volumes!
-T. Wellman

I love giving my goats Selenium 90 during gestation to prevent white muscle disease in the kids.
-Meadow C.

FREQUENTLY ASKED QUESTIONS

HOW DO I KNOW IF MY ANIMALS NEED EXTRA SELENIUM?

Most North American soils are selenium deficient. Deficiencies can be found in vet blood tests, milk tests, and living liver biopsies. Poor reproductive and immune health are also strong signs of deficiency.

HOW DO I USE SELENIUM 90?

For animals on deficient feed or forage. Offer at least 30 days before birthing and through breeding season for both males and females. Easy to offer free choice or mix in with feed rations.
