

ICE SLICER® NATURE'S BLEND

PRODUCT BRIEF

Nature's Blend is an all natural OMRI certified organic mineral ice melt. It is harvested from our ancient sea mineral deposit in Central Utah.

- No added dyes or chemicals (just natural minerals)
- Safe for plants (fewer chloride salts than other ice melts and over 60 trace minerals)
- Effective down to 0° F (most ice melt only works down to 20° F)
- Kid and pet safe (100% mineral salt just like our Redmond Real Salt, simply coarser grains for traction)
- Less corrosive on concrete than regular rock salt
- More traction (naturally varied coarse and fine gradation for safer walkways)
- Convenient 10 lb and 25 lb bags

PRODUCT FAQ'S

HOW MUCH WILL 1 BAG COVER?

A 10lb bag will cover 400 square feet of paved surface. Nature's Blend gets the job done with a lot less product than other ice melts.

WILL IT STAIN MY CONCRETE OR CARPET?

Nope, no dyes here! The reddish color you see in Nature's Blend is from its natural mineral content. It cleans up and washes away without staining.

CAN I USE IT AROUND MY PETS & KIDS?

Yes! Nature's Blend is safe, food grade mineral salt. Repeated exposure to salt can dry out soft tissues like paws and hands, so wiping paws and rinsing hands during the winter is always a good idea.
