Nature has it right™

all classes of bison

0.5% of total feed or offer
free choice

Redmond Bison Mineral is a premium, sweetened, mineral salt mix with 60+ naturally occurring minerals and fortified with additional selenium (90 ppm), copper, manganese, cobalt, iodine, & zinc. We work with nature to supply your herd the essential minerals they crave.

Corrects Mineral Deficiencies

Bison growth rates are slower than other ruminant grazers like cows and sheep. These metabolic differences make it a little more difficult to catch and correct mineral deficiencies. Maintaining a consistent mineral program is the best way to keep these deficiencies at bay.

Your Herd will Crave It

Bison herds can be a little pickier than other grazers when it comes to mineral supplements. Fortunately, Redmond Minerals has tailored our proven, all natural mineral mixes specifically for bison. Redmond's higher salt to mineral ratio also makes our minerals much more palatable to your animals. When offered a choice between Redmond and other minerals, they happily choose Redmond every time! With natural sweeteners added to seal the deal, you can stop worrying about your bison getting the minerals they need.

Trusted by Experts

Several of the most respected bison herds in North America enjoy and trust Redmond Bison Mineral Mix.

Pair with Conditioner

Want to see even more amazing results from your mineral program? Offer your bison 1 bag of Redmond Conditioner for every 2-3 bags of Bison Mineral. This Conditioner contains a blend of our unique mineral salts and the nourishing volcanic clay found on top of our mineral deposit.

NATURE — HAS IT — RIGHT

GUARANTEED ANALYSIS

	Max	Min
Calcium	0.85 %	3.5 %
Phosphorus		0.002 %
Salt	93.0 %	88.0 %
Magnesium		0.06 %
Potassium		0.03 %
Sulfur		0.07 %
Zinc		3,500 ppm
Manganese		2,000 ppm
Iron		300 ppm
Copper		300 ppm
Iodine		110 ppm
Selenium		90 ppm
Cobalt		50 ppm

“

For us, mineral is the biggest health factor in Bison, because if they get low on minerals you're going to have all kinds of issues. Since we've been getting this mineral into them, we've had next to no health issues.

- Nolan M. (Silver Creek Bison, Binscarth, Manitoba)

We have a large herd of bison and beef in the Peace River District of Alberta. Our problem was a low conception rate of 63% and a lack of selenium in our area. Redmond made us a custom mix of salt and mineral for our bison. Bison 90 was born!

After 2 years a tremendous improvement in conception rate of 80% was obtained. Our cows are addicted to Redmond!

-Delano T. (Spirit River, Alberta)
