

Calving season can be very stressful for humans and animals alike. Redmond is here to make sure you have nature-made solutions on hand to keep moms and babies healthy so you can get back to what you love about raising animals.

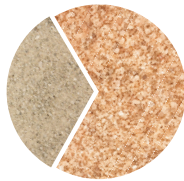

VOLCANIC CONDITIONER FOR DAMS

Pregnant cows' rumen must be in tip top shape to make sure they are absorbing the fiber, minerals, protein, and energy their bodies need. The sodium bentonite clay in Redmond Conditioner is an effective, all natural rumen buffer that also improves feed efficiency, digestion, and binds to toxins in the gut.

Mixing 1 part Conditioner with 2-3 parts Redmond sea minerals is a simple way to help:

- Prevent mineral deficiencies
- Boost rumen health
- Support lactation
- Protect cows from hypocalcemia/milk fever and other disorders

What Customers Say about Conditioner

"I've been feeding them nothing but Redmond salt and Conditioner... our [milk] fat and protein have gone up considerably, our death loss went down considerably."
-Jason N.

"I got to looking at Redmond Conditioner and Redmond Salt and came to experience tremendous success and financial results...I attribute it all to the Redmond program I was on."
-Tom D.

FIRST MONTH™ FOR NEWBORN CALVES

Newborn calves are extremely vulnerable to gut diseases like scours. Redmond First Month takes the gut benefits of our Conditioner plus probiotics, prebiotics, and electrolytes to boost immune health when they need it most.

With mixable powder for prevention, and hydrated paste for treatment, First Month has your newborn calves covered:

- Cut death losses
- Stop dehydration
- Improve digestion
- Restrict pathogen growth
- Prevent and treat scours/diarrhea

What Customers Say about First Month

"Thank goodness for Redmond First Month! Had I been using it from the start, I believe I could have avoided a lot of problems of scours and her recovery would have been much quicker... I will be using this wonderful product for all my bottle calves!"
-Cynthia A.

"We are pleased with the early results from using this product. The health of our calves is elevated from the previous products we used. Sick calves come back to life faster."
-Maple Knoll Farm
