Redmond 4 Medium is our premium mineral salt with larger, wheat-sized granules. 4 Medium is best to provide free choice, but it can also be mixed into feed. 4 Medium is OMRI Listed® and can be used for all classes of livestock.

Refined vs. Unrefined

Most agriculture salts are refined - the minerals naturally found in the salt were leached out or removed. Redmond salt is un-refined and untreated, just the way nature intended

7% Matters

Redmond's salt is unrefined. It's gathered from an ancient sea salt deposit and packaged with all 60+ minerals intact. Our ratio is 93% sodium chloride and 7% trace minerals

Improves Vitality

Redmond's salt and mineral levels are nearly identical to the proportions you find in the blood of healthy livestock. It's mother nature's formula for ideal animal health

NOT ALL SALT IS CREATED EQUAL

Redmond salt is also fully customizable to meet the mineral needs of your animals and land
