

Selenium 90

Nature has it right™

Available in

5 lb Pouch

PN # 109340
UPC 758364109340

50 lb Bag

PN # 305604
UPC 758364302604

5 lb Case of 6

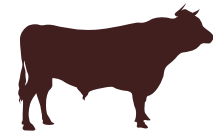

PN # 109005
UPC 758364109005

44 lb Block

PN # 321506
UPC 758364321506

dairy cattle
grain fed beef cattle
4 oz. per head per day
and/or free choice

beef cattle
2-4 oz. per head per day
and/or free choice

smaller cattle
add salt in proportion to
body size or free choice

sheep + goats
.25 - .50 oz per head per
day or free choice

swine
.5% of total feed

poultry
.5% of total feed

soil
apply dry at rates of 25-150
lbs per acre once a year

Redmond Selenium 90 contains our premium ancient trace mineral salt, and is fortified with added selenium (90ppm), copper, manganese, cobalt, iodine, and zinc. Available in block or loose minerals, Selenium 90 is fortified to help herds that live in deficient areas. Selenium is an essential mineral for cattle that boosts immune and reproductive health.

Correct a Common Deficiency

In many areas, North American soil is deficient in selenium and most grazers need additional supplementation. Redmond Selenium 90 works with your animals natural cravings for salty electrolytes and encourages them to eat and enjoy this fortified mix.

Boost Immunity

As an antioxidant, selenium keeps excess free radicals in check and protects cells from oxidative stress. Once ingested, dietary selenium also becomes incorporated into at least 25 different proteins. These selenoproteins regulate the immune system, prevent it from harmfully over-reacting, and reduce inflammation.

Better Weights and Calving Production

Supplementing trace minerals during the last trimester is extremely beneficial for mother and calf, even if they do not test as mineral deficient.

Reinaldo Cooke, PhD, at Oregon State University, conducted a study on the effects of organic trace mineral supplements during the 3rd trimester.

In the trace mineral group:

- Calves had a \$70 per head weaning weight advantage
- Over 50% fewer cases of respiratory illness
- Higher finishing weights than the control group

No Chemical Processing

All of Redmond's products are unrefined. Whether your approach is organic or conventional, Selenium 90 can help you get back to what you love about raising animals.

MINERALS THAT GO TO WORK NOT TO WASTE

Guaranteed Analysis

	MAX	MIN
Salt	93.0 %	88.0 %
Calcium	0.85 %	0.35 %
Cobalt		50 ppm
Copper		300 ppm
Iodine		110 ppm
Iron		300 ppm
Magnesium		0.06 %
Manganese		300 ppm
Phosphorus		0.002 %
Potassium		0.03 %
Selenium		90 ppm
Sulfur		0.07 %

Customize your Minerals

Redmond salt is fully customizable to meet the mineral needs of your operation
