

REDMOND UDDER MUD

PRODUCT BRIEF

Udder Mud is a soothing paste made from natural montmorillonite clay and a unique blend of organic essential oils.

- **FOR ALL LACTATING ANIMALS**

Udder Mud is loved by cows, sheep, goats, and more. It is also beneficial for humans!

- **NATURAL MASTITIS TREATMENT**

Reduces swelling, inhibits infection, and relieves discomfort for mastitis and lactating pain or inflammation. Perfect for use with both traditional and organic operations

- **VERSITILE PROTECTION**

Udder Mud can be applied to help sores, open wounds, skin irritations, burns, and bites. When applied, the clay in Udder Mud may help to seal the area. A sealed area can help keep flies and bacteria away from the affected area.

PRODUCT FAQ'S

HOW DO I USE IT?

Massage a generous amount onto the affected area. Unlike creams, Udder Mud works without needing to be absorbed completely. Udder Mud is not a lotion, so you'll want to smear a generous amount of the clay on the affected area and let it set. Most customers suggest leaving a ¼ inch layer on the udder. Repeat after each milking.

WHAT ARE UDDER MUD'S INGREDIENTS?

Purified Water, Bentonite Clay (also called Montmorillonite), Peppermint Essential Oil, Menthol, Unrefined Salt, Tea Tree Oil
